***Tier 1: Proflex, OPTek Flex, Orfitrans, Orfitrans Extra Excel, or similar.***

***Tier 2: Proflex with silicone, OPTek Flex Comfort, Orfitrans Extra Soft w/ Silicone, Northvane, OssurFlex, Streifyflex or similar***

***\*Any lock, valve, lanyard, or vacuum system that requires additional fab time beyond a standard unit may accrue additional cost.***

Discounts will be applied if components are provided. For example, if a component is provided, Wamhoff Mobility Lab's price for the item will be discounted from the final price. This can include items such as Revo kits, prosthetic locks/lanyards/valves/alignment blocks, PDE components, AFO joints/stops, etc.

For all services with additional costs accrued from ordered items, the additional cost and handling fee will be removed if the required item is provided/shipped to Wamhoff Mobility Lab for fabrication. Please communicate preferences with John through email at [john@wamhoffmobilitylab.com](mailto:john@wamhoffmobilitylab.com) or call/text (269)-615-1643.

*Services not mentioned in the above list will require a quote request prior to fabrication. This includes items such as upper extremity prosthetics or orthotics, or any complex lower extremity items.*

***\*All prices are subject to change at the discretion of Wamhoff Mobility Lab.\****

### **Standard Turnaround Times**

**Thermoplastic AFOs/SMOs:** 6-10 business days

**Thermoplastic PDE AFOs:** 12 business days

**Thermoplastic KAFOs:** 15 business days

**Dynamic Carbon AFOs:** 10 business days

**Carbon PDE AFOs:** 12 business days

**Carbon/Hybrid KAFOs:** 18 business days

**Laminated BK Socket:** 8 business days

**Laminated AK Socket:** 10 business days

**Simple Diagnostic Socket:** 2 business days

**Complex Diagnostic Socket (w/ flexible inner or REVO, etc):** 3 business days

Rush charges will be incurred on any job that requires completion shorter than a standard timeline and/or requires overnight shipping.

### **Rush charge schedule:**

1-2 days less than standard turnaround time: \$50

3-5 days less than standard turnaround time: \$100

5-8 days less than standard turnaround time: \$150

8+ days less than standard turnaround time: \$200

## **Warranties**

All products/items fabricated by Wamhoff Mobility Lab have a 4-month warranty from the day the product is delivered to your office.

Warranty replacements are subject to the discretion of Wamhoff Mobility Lab (i.e. patient taking a drill/saw/grinder/etc. to product or unnatural use of product took use will not be subject to warranty replacement. All parts ordered (i.e. prosthetic components, joints, etc.) will follow the warranty provided by the manufacturer.

All positive models that do not need to be broken out during fabrication are stored by Wamhoff Mobility Lab for 6 months after fabrication.

## **Shipping Charges**

Effective 2026, shipping charges will apply to all items shipped out. If you have cheaper shipping charges through your UPS or FedEx accounts, you can provide those accounts so that charges will reflect your terms.

## **Payment Terms**

All accounts will be on Net-30 terms unless other agreements have been reached between the two parties.

## **Late Payments**

All invoices not paid will be subject to an additional 10% charge each month if the invoice is not paid. After 3 months of non-payment, the invoice will be sent to collections.

## **Past Due Accounts**

After 90 days of non-payment for customers on Net-30 terms, accounts will be placed on hold until all active invoices are paid.
